ThreeWorks® Snacks signs exclusive National Distribution Agreement in the United States with World Finer Foods for its innovative ThreeWorks® Apple Chips, set to launch Fall 2015.

BLOOMFIELD, N.J. -- World Finer Foods, a leading supplier of specialty food, beverage and personal care products from the U.S. and around the world, is pleased to announce the addition of ThreeWorks® Apple Chips to the Company's comprehensive assortment of award winning products.

"We are very excited to launch ThreeWorks® Snacks in the U.S., given its success in Canada," stated Susan Guerin, CEO of World Finer Foods.

"ThreeWorks® Apple Chips capitalize on the growing healthy snacking trend and offers great appeal to kids and moms alike."

"I founded the company so I could snack healthy, not go hungry and make my mom happy," says Michael Petcherski, founder and CEO of ThreeWorks® Snacks. "We have received a great response to our brand in Canada, and are very excited to be working with World Finer Foods to bring Canada's coolest fruit chip brand to the US. It has always been our goal to introduce our tasty and cool snacks to Moms, Kids and Families in the United States and we have the right partner now to make that happen."

ThreeWorks® Apple Chips are born right on the tree, picked, sliced, dehydrated™ (it's a company secret), naturally flavored and popped into fun portable canister packages. This innovative production process maintains the natural apple flavor and creates a unique crisp texture and potato like crunch, without the fat, gluten or added sugar, ThreeWorks® Apple Chips are a tasty, healthy alternative to fried snacks. With only 1 or 2 ingredients in every package, 100% Natural and non-GMO, they're loaded with "All Tasty, All Good™" things, including the most important one of all – FUN! Put them in a school lunch or in your own lunch bag to set a positive example for kids – the apple chip doesn't fall far from the tree.

World Finer Foods will begin exclusive distribution of three fun, crunchy flavors throughout the United States beginning this September 2015: ThreeWorks® Apple Chips So Original, Pinch-O-Cinnamon and Berry Berry will start appearing on store shelves this coming Fall 2015. You can preview and sample ThreeWorks® Apple Chips at the Natural Products Expo East Trade Food Show in Baltimore, Maryland, September 17-19, 2015 at Booth #823. EXPO food shows are the largest series of Natural Product expos in the world, targeted to the health food industry. Susan Guerin and Michael Petcherski will both be in attendance and available for media requests.
